VOLUME 82

ACTA PHYSIOLOGICA SCANDINAVICA

Editorial Board

F. Buchthal, København
K. Hartiala, Turku
R. Nicolaysen, Oslo
Y. Zotterman, Stockholm
U. S. von Euler (Editor), Stockholm

Vol. 82. INDEX

Fasc. 1. (May 1971)

Intracellular Accumulation and Permeability Effects of Some Weak Acids in the Isolated Frog Gastric Mucosa. By G. Flemström 1
Dissociation of Tracer Disappearance Rate and Blood Flow in Isolated Skeletal Muscle during Various Vascular Reactions. By P. Bolme and L. Edwall 17
The Effect of Cordycepin on Nuclear RNA Synthesis in Nerve and Glial Cells. By B. Grahn and H. Løvtrup-Rein 28
Uptake of 5-Hydroxytryptamine by Mast Cell Granules *in vitro*. By S.-E. Jansson ... 35
Release of Histamine and Formation of Slow Reaction Substance in the Cat Paw Induced by Compound 48/80. By K. Strandberg 47
Effect of Some Drugs on the Uptake of Monoamines and Their Precursors in the Mouse Paneth Cells. By A. Ahonen and A. Penttilä 59
Action Potential Generation in Denervated Rat Skeletal Muscle. II. The Action of Tetrodotoxin. By P. Redfern and S. Thesleff 70
Inotropic and Metabolic Effects of Dibutyryl Cyclic Adenosine 3′, 5′-Monophosphate in the Perfused Rat Heart. By K. Ahrén, Å. Hjalmarson and O. Isaksson 79
Histamine and Heparin Release from Isolated Rat Mast Cells Exposed to Compound 48/80. By S. A. Slorach 91
Thermoregulation during Work in Carbon Monoxide Poisoning. By B. Nielsen 98
Noradrenaline Uptake and Fluorescence Histochemistry in Bovine Splenic Nerves. By B. Hamberger, T. Malmfors and L. Stjärne 107
Oxygen Deficit and Muscle Metabolites in Intermittent Exercise. By J. Karlsson and B. Saltin 115
Lactate in Working Muscles after Prolonged Exercise. By J. Karlsson 123

The Effect of Deuterium on the Release and Uptake of Noradrenaline in Isolated Nerve Granules. By U. S. von EULER and F. LISHAJKO 131
Characterization of Neuronal and Glial Fractions Separated in Sucrose and Ficoll Media. By K. HEMMINKI and E. HOLMILA 135

Short Communication:

The Effect of Breathing on the Cardiovascular Adjustment Induced by Face Immersion in Man. By A. S. BLIX, J. KROG and H. O. MYHRE 143

Fasc. 2. (June 1971)

The Effect of Changes in the Blood Flow to the Tongue on the Chorda Tympani Response in Rat. By G. HELLEKANT 145
Spatial Distribution of Receptor-Responses to Stimulation with Different Odours. By H. MUSTAPARTA 154
Effect of Prolonged Strenuous Exercise on the Concentration of Triglycerides, Phospholipids and Glycogen in Muscle of Man. By S. O. FRÖBERG and F. MOSSFELDT 167
Persistence of Cerebral Blood Flow Autoregulation Following Chronic Bilateral Cervical Sympathectomy in the Monkey. By B. EKLÖF, D. H. INGVAR, E. KÅGSTRÖM and T. OLIN 172
Studies on the Intestinal Vasodilatation Observed after Mechanical Stimulation of the Mucosa of the Gut. By B. BIBER, O. LUNDGREN and J. SVANVIK 177
Rapid Interaction between Gonadotrophic Hormones and the Prepubertal Rat Ovary By K. AHRÉN, L. HAMBERGER and T. PERKLEV 191
Effect of Prolonged Physical Training on the Catecholamine Levels of the Heart and the Adrenals of the Rat. By I. ÖSTMAN and N. O. SJÖSTRAND 202
Dopa-decarboxylase in Autonomic and Sensory Ganglia of the Cat. By E. GIACOBINI and B. NORÉ 209
Thrombocytes and Pulmonary Vascular Resistance during Hemorrhagic Hypotension. By G. Bø and J. HOGNESTAD 218
Biological Evaluation of Protein Quality and Safety of a Lipoprotein Concentrate from Niger Seed. (*Guizotia Abyssinica Cass.*) By A. EKLUND 229
Dynamics of Arterial Oxygen Tension in Response to Sinusoidal Work Load in Man. By H. BJURSTEDT and O. WIGERTZ 236
Dynamics of Arterial Blood Pressure Responses to Sinusiodal Work Load in Man. By G. ROSENHAMER and O. WIGERTZ 250
Synaptic Connections of the Paracervical (Frankenhäuser) Ganglion of the Rat Uterus Examined with the Electron Microscope after Division of the Sympathetic and Sacral Parasympathetic Nerves. By T. MUSTONEN and H. TERÄVÄINEN 264
The Influence of the Nigro-Neostriatal Dopamine Pathway on Spinal Motoneuron Activity. By N.-E. ANDÉN, K. LARSSON and G. STEG 268
Cyclic Variation of Body Temperature in Female Rabbits before and after Ovariectomy. By J. E. KIHLSTRÖM and C. LUNDBERG 272
Long-Term Changes in the ERG Following Transection of the Optic Nerve in the Rabbit. By E. BORG and B. KNAVE 277
The Effect of Protriptyline on Uptake and Retention of dl-^{3}H-Noradrenaline in Different Tissues of the Rat. By O. ALMGREN and J. JONASON 282

Fasc. 3. (July 1971)

Fibrinogen Degradation Products in Experimental Intravascular Coagulation. Gel filtration and immunological studies. By E. ZETTERQVIST 289

Endotoxin-Induced Suppression of Rabbit Kidney DOPA Decarboxylase Activity. By H. FRITZ and R. HÅKANSON 300
Catecholamines, Monoamine Oxidase and Cholinesterase Activity in the Human Sympathetic Ganglion. By M. HÄRKÖNEN and A. PENTTILÄ 310
The Effects of K^+-free Solution on Tension Development in the Smooth Muscle Taenia Coli from the Guinea Pig. By J. AXELSSON and B. HOLMBERG 322
Efflux of Prostaglandin E_2 from Cat Paws Perfused with Compound 48/80. By E. ÄNGGÅRD and K. STRANDBERG 333
Effects of Parasympathomimetic Agents and Vagal Stimulation on the Flow in the Pancreatic Duct of the Cat. By S. LENNINGER 345
The Quantitative Inhibition of Triton Lipemia with Heparin in Rats. By M. HAIKONEN, T. RÄSÄNEN, V. RÄSÄNEN and E. TASKINEN 354
Purification and Properties of the Slow Reacting Substance Formed in the Cat Paw Perfused with Compound 48/80. By K. STRANDBERG and B. UVNÄS 358
Hyperosmolarity and Pulmonary Vascular Capacitance. By G. BØ, A. HAUGE and G. NICOLAYSEN 375
The Effects of Changes in the Ionic Environment on Venous Smooth Muslce Distribution of Sodium and Potassium. By B. WAHLSTRÖM 382
Pulmonary Transcapillary Exchange of ^{24}Na and $^{51}CrEDTA$. An Evaluation of Factors Influencing the Extraction of these Tracers during one Passage through an Isolated Lung Preparation. By G. NICOLAYSEN 393
Ultrastructural Studies of the Alveolar-Capillary Barrier in Isolated Plasma-Perfused Rabbit Lungs. Effects of EDTA and of Increased Capillary Pressure. By T. HOVIG, A. NICOLAYSEN and G. NICOLAYSEN 417

Short Communications:

A Note on Knee-joint Denervation and Postural Reflexes in the Cat. By S. LINDSTRÖM and U. NORRSELL 406
Cerebral Blood Flow and Cerebral Energy State. By B. EKLÖF and B. K. SIESJÖ 409
Critical Oxygen Tensions in the Brain. By V. MACMILLAN and B. K. SIESJÖ 412
Induction of Midtrimester Abortion by Intra-Amniotic Administration of Prostaglandin $F_{2\alpha}$. A Preliminary Report. By M. BYGDEMAN, M. TOPPOZADA and N. WIQUIST 415

Abstracts from Meeting of the Scandinavian Physiological Society in Bergen 7—8 May 1971

Demonstrations

Sleep in the Cat: A Parallel Increase of Deep Slow Wave Sleep and REM Sleep Following Total Sleep Deprivation. By R. URSIN 1A
Electrical Stimulation of the Brain and Learning in the Cat. By H. SUNDBERG 2A
Extrapleural Measurements of Blood Flow in the Arch of the Aorta with Electromagnetic Flowmeter. By A. KIRKEBÖ 3A
A Closed Chamber for Microelectrode Recording from the Brain. By S. A. ANDERSSON and Y. KÄLLSTRÖM 3A
Stimulation and Recording with Closely Spaced Microelectrodes. By E. EIDE 4A
Gastric Acid Response to Distension of the Stomach in Man. By S. BERGEGÅRDH and L. OLBE 6A
Developmental Defects Produced by Brain 5-Hydroxytryptamine Depletion in Rat Pups. By K. HOLE 7A

Effect of Strenuous Arm and Leg Training on Pulmonary Ventilation, Metabolism and Blood pH during Submaximal Exercise. By J. P. Clausen, K. Klausen, B. Rasmussen and J. Trap-Jensen 8A
The Hemodynamic Consequences of Regional Hypotension in Spontaneously Hypertensive and Normotensive Rats. By. B. Folkow, M. Gurévich, M. Hallbäck, Y. Lundgren and L. Weiss 9A
Lactate/Pyruvate Ratio in Muscular Work. By C. Olsen and E. Strange Petersen ... 10A
Renal Function in the Hibernating Hedgehog. By G. Clausen and A. Storesund 11A

Communications

Osmotic and Ionic Conditions in Pelagic Teleost Eggs. By H. Leivestad 12A
Effects of Increased Work Load in Vitro on Heart Protein Synthesis. By Å. Hjalmarson and O. Isaksson 12A
Increased Mechanical Efficiency in Contracting Skeletal Muscle Induced by Isoproterenol. By S. Akre and O. D. Mjøs 13A
Inhibition of Palatal and Laryngeal Reflexes by Afferent Stimulation. By C. Lindquist and A. Mårtensson 14A
Time Difference between Onset of Spindle Acceleration and Skeletomotor Activation in Isometric Voluntary Contractions in Man. By Å. B. Vallbo 15A
Plasma Corticosterone Levels during Active Avoidance Learning. By G. D. Coover, S. Levine and H. Ursin 16A
Initial Ventilatory Response during Muscular Exercise in Man. By J. Ingemann Jensen, E. Strange Petersen and H. Vejby-Christensen 17A
Effects of Blocking the Autonomic Nervous System during Exercise. By P.-O. Åstrand, B. Ekblom and A. N. Goldbarg 18A
Effect of Long-Term Administration of Thyrocalcitonin on the Skeleton of Calcium-depleted Rats. By O. J. Malm and L. Myhre 19A
Central Regulation of ADH-release in the Conscious Goat. By L. Eriksson, O. Fernandez and K. Olsson 20A
A Mucopolysaccharide-Protein Complex with Amine Binding Properties in Rat Thrombocytes. By C.-H. Åborg and B. Uvnäs 21A
Effect of Acetylcholine on the Efflux of Calcium-45 from the Perfused Cat Submandibular Gland. By S. P. Nielsen and O. H. Petersen 22A
Function of Single Interneurones Established by their Monosynaptic Inhibitory Effects on Motoneurones. By E. Jankowska and W. Roberts 24A
Two Pathways from the Mesencephalon to Fusimotor Neurones of the Contralateral Flexor Digitorum Longus Muscle of the Cat. By B. Appelberg and T. Jeneskog 25A
Smooth Muscular Hypertrophy of a Medium-Sized Artery Following a Local Drop in Pressure and an Enormous Increase in Blood Flow. By R. D. Harkness, R. Ingebrigtsen and L. A. Solberg 26A
The Effects of "Immunosympathectomy" on Blood Pressure and Vascular "Reactivity" in Normal and Spontaneously Hypertensive Rats. By B. Folkow, M. Hallbäck, Y. Lundgren and L. Weiss 27A
Effect of Prostaglandin $F_{2\alpha}$ on Airway Resistance in Man. By P. Hedqvist, A. Holmgren and A. A. Mathé 29A
A Latency in the Activation of Lipolysis in Adipose Tissue during Nerve Stimulation. By B. B. Fredholm 30A
Hormonal Regulation of Ovarian Phosphorylase Activity. By K. Ahrén and G. Selstam 31A
Interactions between Sugar and Amino Acid Transport in Rat Jejunum. By B. G. Munck 32A

Gastric Acid Response to Sham Feeding in Duodenal Ulcer Patients before and after Antrectomy. By U. KNUTSON and L. OLBE 33A
Effects on Left Ventricular Dimensions of Saline Loading at Different Levels of Adrenergic Activity. By B. BUGGE-ASPERHEIM, F. KIIL and J. LEKVEN 34A
Effects of Selective Arm- and Leg Training on Cardiac Output and Regional Blood Flow. By J. P. CLAUSEN, K. KLAUSEN, B. RASMUSSEN and J. TRAP-JENSEN 35A
Effect of Acetylcholine on the Electrical and Mechanical Responses of the Guinea-pig Vas Deferens to Nerve Stimulation. By N. O. SJÖSTRAND 36A
Repetitive Impulse Firing: Properties of a Neurone Model Based on "Voltage Clamp Equations" Compared to the Properties of Spinal Motoneurones. By D. KERNELL and H. SJÖHOLM 37A
Spectral Sensitivity of the Compound Eye in Three Heliconius Species. By G. STRUWE 38A
Skin Circulation in the Cheeks of Arctic Populations and Adaptation to Cold. By M. WIKA 39A

Fasc. 4. (August 1971)

Spatial Specificity of Local Habituation to Cold. By R. EIDE 433
Aspects of the Cardiovascular Nervous Control in a Mammalian Diver (*Myocastcr Coypus*). By B. FOLKOW, B. LISANDER and B. ÖBERG 439
A Fifth Modality of Taste. By H. T. ANDERSEN and Å. O. HARTMANN 447
On the Relation between the Chorda Tympani Nerve Response, Arterial Oxygen Tension and Blood Flow in the Tongue of the Rat. By G. HELLEKANT 453
Antagonism of Slow Reacting Substance by Polyphloretin Phosphate on Isolated Human Bronchi. By A. A. MATHÉ and K. STRANDBERG 460
Stability of [Mg^{2+}] in Cerebrospinal Fluid during Plasma Changes and during Hypercapnia in Young and in Adult Rats. By O. M. OLSEN and S. C. SØRENSEN 466
Red Blood Cell and Plasma Volumes, Total Body Water and Sulfate Space in Obese--Hyperglycemic Mice and Lean Litter Mates. By A. BILL, G. HERBAI and S. WESTMAN--NAESER 470
Postnatal Excitability Changes of the Ankle Monosynaptic Reflexes in the Cat. By A. MELLSTRÖM 477
Recurrent and Antidromic Effects on the Monosynaptic Reflex during Postnatal Development in the Cat. By A. MELLSTRÖM 490
Ca^{++} Dependence of Histamine Release and Formation of Slow Reacting Substance in the Cat Paw. By K. STRANDBERG 500
Efflux of Slow Reacting Substance (SRS) and Prostaglandins from Cat Paws Perfused with d-Tubocurarine and n-Octylamine. By K. STRANDBERG 509
Changes in Cerebral Blood Volume of Mice at Various Time-Periods after Superior Cervical Sympatectomy By L. EDVINSSON, CH. OWMAN and K. A. WEST 521
Alterations in Intracranial Pressure, Blood-Brain Barrier, and Brain Edema after Sub-Chronic Implantation of a Cannula into the Brain of Conscious Animals. By L. EDVINSSON, K. C. NIELSEN, CH. OWMAN and K. A. WEST 527
Quantitative Evaluation of Release and Reuptake of Adrenergic Transmitter in the Rabbit Heart. By Å. WENNMALM 532
The Effect of Protriptyline on the Disappearance and Nerve Impulse Induced Release of Labelled Metaraminol in the Rat. By O. ALMGREN 539
Transducer Characteristics of the Muscle Spindle as Revealed by its Receptor Potential. By D. OTTOSON and G. M. SHEPHERD 545
Influence of Changes in Microcirculation on the Excitability of the Sensory Unit in the Tooth of the Cat. By L. EDWALL and D. SCOTT, JR. 555

Lipids of the Sympathetic Nerve Trunk Vesicles. Comparison vith Adrenomedullary Vesicles. By H. LAGERCRANTZ 567

Short Communications:

Formation of ^{14}C-Octopamine from ^{14}C-Tyramine in the Mouse: A Dose-Dependent Relationship. By B. WALDECK 571

Studies on Cardiac Ventricular Receptors. A Preliminary Report. By B. ÖBERG and P. THORÉN 574

Supplements

Supplementum 361. The Chemical Control of Ventilation. By S. C. SØRENSEN.

Supplementum 362. Studies on Catecholamine Relesae and Uptake in Adreno-Medullary Storage Granules. By F. LISHAJKO.

Supplementum 363. Dynamics of Respiratory and Circulatory Adaptation to Muscular Exercise in Man. By O. WIGERTZ.

Supplementum 364. Calibre Spectra of Some Fibre Tracts in the Feline Central Nervous System during Postnatal Development. By C. HILDEBRAND and S. SKOGLUND.

Supplementum 365. Studies on Mechanisms Controlling the Secretion of Neurotransmitters in the Rabbit Heart. By Å. WENNMALM.

Supplemetum 366. Sympathetic Nerve Trunk Vesicles. Isolation and Biochemical Characterization. Comparison with Catecholamine Storage Particles from Nerve Terminals and Adrenal Medulla. By H. LAGERCRANTZ

Supplementum 367. Stereotaxic Mapping of the Monoamine Pathways in the Rat Brain. By U. UNGERSTEDT.

INDEX AUCTORUM

Ahonen, A. and A. Penttilä, Uptake of Monoamines in Paneth Cells 59
Ahrén, K., L. Hamberger and T. Perklev, Gonadotrophins and Rat Ovaries 191
Ahrén, K., Å. Hjalmarson and O. Isaksson, Isolated Hearts and Cyclic AMP 79
Almgren, O., Protriptyline and Metaraminol Release 539
Almgren, O. and J. Jonason, PTP and NA Uptake 282
Andén, N.-E., K. Larsson and G. Steg, Neostriatal Dopamine and Motoneurons 268
Andersen, H. T. and Å. O. Hartmann, A Fifth Taste Quality 447
Änggård, E. and K. Strandberg, Efflux of PGE_2 from Cat Paws 333
Axelsson, J. and B. Holmberg, K^+-free Solution and Tension Development 322
Biber, B., O. Lundgren and J. Svanvik, Intestinal Vasodilatation 177
Bill, A., G. Herbai and S. Westman-Naeser, Blood Cells in Obese Mice 470
Bjurstedt, H. and O. Wigertz, Dynamics of Arterial O_2 Tension 236
Blix, A. S., J. Krog and H. O. Myhre, Breathing and Face Immersion 143
Bø, G. and J. Hognestad, Pulmonary Vascular Resistance 218
Bø, G., A. Hauge and G. Nicolaysen, Pulmonary Vascular Capacitance 375
Bolme, P. and L. Edwall, Dissociation of Tracer Disappearance Rate and Blood Flow 17
Borg, E. and B. Knave, ERG after Optic Nerve Transection 277
Bygdeman, M., M. Toppozada and N. Wiqvist, Intra-Amniotic Prostaglandin $F_{2\alpha}$ 415
Edwall, L. and P. Bolme, Dissociation of Tracer Disappearance Rate and Blood Flow 17
Edwall, L. and D. Scott, Jr., Pulpal Microcirculation and Excitability 555
Edvinsson, L., Ch. Owman and K. A. West, Cerebral Blood Volume After Sympathectomy 521
Edvinsson, L., K. C. Nielsen, Ch. Owman and K. A. West, Intracranial Pressure in Conscious Rabbits 527
Eide, R., Local Habituation to Cold 433
Eklöf, B. and B. K. Siesjö, Cerebral Blood Flow and Cerebral State 409
Eklöf, B., D. H. Ingvar, E. Kågström and T. Olin, Cerebral Blood Autoregulation 172
Eklund, A., Biological Quality of NUG Proteins 229
Euler, U. S. v. and F. Lishajko, The Effect of Deuterium 131
Flemström, G., Intracellular Accumulation of Acids 1
Folkow, B., B. Lisander and B. Öberg, Cardiovascular Control in Mammalian Diver 439
Fritz, H. and R. Håkanson, Endotoxin-Induced Suppression of DOPA Decarboxylase 300
Fröberg, S O. and F. Mossfeldt, Exercise and Tissue Lipids 167
Giacobini, E. and B. Noré, Dopa-Decarboxylase in Ganglia 209
Grahn, B. and H. Løvtrup-Rein, Inhibition of Nuclear RNA in Brain Cells 28
Haikonen, M., T. Räsänen, V. Räsänen and E. Taskinen, Lipemia Inhibition with Heparine 354
Håkanson, R. and H. Fritz, Endotoxin-Induced Suppression of DOPA Decarboxylase. 300
Hamberger, B., T. Malmfors and L. Stjärne, NA Uptake in Splenic Nerves 107
Hamberger, L., K. Ahrén, and T. Perklev, Gonadotrophins and Rat Ovaries 191
Härkönen, M. and A. Penttilä, Catecholamines and Enzymes in Ganglion 310
Hartmann, Å. O. and H. T. Andersen, A Fifth Taste Quality 447
Hauge, A., G. Bø and G. Nicolaysen, Pulmonary Vascular Capacitance 375
Hellekant, G., Blood Flow and Taste Receptor Sensitivity 145
Hellekant, G., Blood Flow and Chorda Tympani Response 453
Hemminki, K. and E. Holmila, Neurons and Glia from Sucrose and Ficoll 135
Herbai, G., A. Bill and S. Westman-Naeser, Blood Cells in Obese Mice 470
